

INSPIRED BY EFFICIENCY

Civil and Structural Engineering solutions that reduce
resources, time and money

DOING MORE WITH **LESS.** IT'S WHAT THE WORLD DEMANDS NOW.

Honestly it's amazing how they made the structure design work in line with the architect's vision for the building... In my 20 years' experience in construction, they are my preferred Engineer.

Craig Earley
Architectus

At Birzulis, we don't just meet your brief – we find the most efficient way to exceed it.

Through honest collaboration and our proven methodology, we deliver engineering solutions that save materials, time and money without compromising your vision or engineering integrity.

Because **over-engineering** is **lazy engineering**.

ESTABLISHED ENGINEERING EXCELLENCE SINCE 1989

For over three decades, Birzulis has been delivering engineering solutions across Sydney, Newcastle and NSW. We're not your typical consultancy - we're the engineers who ask "how can we do this better?" on every project.

OUR DUAL EXPERTISE ADVANTAGE:

- ◇ Civil & Structural Engineering
- ◇ Reduces coordination issues and project complexity
- ◇ Streamlined communication and delivery
- ◇ Single point of accountability

QUALITY YOU CAN TRUST:

- ◇ ISO9001 Quality Assurance certified
- ◇ Professional registrations across all disciplines
- ◇ Dedicated in-house BIM capabilities led by BIM Manager Rob Brown
- ◇ Pod structure ensures focused attention on every project

THE BIRZULIS DIFFERENCE

OUR FOCUS ON EFFICIENCY

We don't leave efficiency to chance. Every project goes through our unique methodology – a systematic approach that identifies opportunities to optimise every design and deliver genuine value.

OUR PROCESS:

- 1 COLLABORATE**
We work openly with architects, builders and project teams
- 2 ANALYSE**
We examine every element for efficiency opportunities
- 3 INNOVATE**
We develop solutions that do more with less
- 4 DELIVER**
We execute with precision and accountability

THE RESULT:

Engineering solutions that retain design integrity while eliminating waste and reducing resources, time and costs.

DRIVEN BY OUR VALUES

SHOW HONESTY & INTEGRITY

If something's not right, we say so. Mistakes get owned, concerns get raised, and every engineer takes ownership for their work.

RELIABLE

We do what we say, when we say we'll do it. Deadlines met, calls returned, and responses that don't keep our clients waiting.

KNOWLEDGEABLE

We stay current on codes, open to new thinking, and always consult the right people. Our expert knowledge applies equally on site as it does in our documentation.

TEAM PLAYER

We back each other, act on feedback, and promote the firm. Good collaboration doesn't happen by accident - it's a standard we hold ourselves to.

ATTENTION TO DETAIL

Careful, considered, and never satisfied with good enough. Precision in everything we do.

HARDWORKING

Every task gets our full effort - efficient, productive, and done properly. No shortcuts.

SECTORS WE SERVE

EDUCATION

- ◇ Primary and secondary schools
- ◇ University facilities
- ◇ TAFE and vocational training centres
- ◇ Libraries and learning centres

AGED CARE

- ◇ Residential aged care facilities
- ◇ Day care centres
- ◇ Memory care units
- ◇ Healthcare support facilities

PUBLIC BUILDINGS

- ◇ Government office buildings
- ◇ Community centres
- ◇ Cultural facilities
- ◇ Emergency services buildings
- ◇ Sport and Recreation facilities

HOSPITALITY AND OTHERS

- ◇ Commercial developments
- ◇ Industrial facilities
- ◇ Infrastructure projects

OVER

10,000
PROJECTS

COMPLETED

A

30-YEAR

SUCCESS STORY

Major projects include the National Gallery of Australia, Ian Thorpe Aquatic Centre, Fire & Rescue NSW Headquarters, plus hundreds of education, aged care, hospitality and public building projects.

WHY WORK WITH BIRZULIS?

IF YOU NEED ENGINEERING PARTNERS WHO:

- ✓ Deliver quality solutions on time and budget
- ✓ Find ways to optimise costs without compromising quality
- ✓ Communicate responsively throughout the project
- ✓ You can trust to add value to your clients - and your reputation
- ✓ Take responsibility and solve problems

WE DELIVER:

- ◇ EFFICIENT SOLUTIONS - Our methodology consistently identifies savings
- ◇ HONEST COMMUNICATION - No surprises, no finger-pointing
- ◇ RESPONSIVE SERVICE - Fast responses as standard
- ◇ PROVEN RESULTS - 30+ years, major projects, loyal clients
- ◇ SINGLE SOURCE - Civil and Structural working side by side

Professional, methodical, and highly collaborative ... Birzulis' engineering approach helped streamline decision-making and reduced rework on site, which ultimately saved both time and costs. We will continue to engage them on future projects.
